The Crystal Glass Works.

The rival to the leaning tower of Piss, which exists in one of the stacks at the old LaBelle glass plant, has been torn down and replaced by a new stack. The told furnare has also been torn out and one of the most modern design built in its stead. The new furnace can be maintained at a much less cost than the old one. The operation of the plant under its new management is looked forward to with much interest by Bridge porters. During the past six years the kindling of this plant's furnace fires has invariably terminated as unsaccessful

experiments, but with an entire new management that has been successful in the operation of other glass plants, it is thought that the Crystal will move along as smoothly and successfully as a day.

At the Buckeye Glass Works the middle furnace is on full. The shops of Frank Dennis and Charles Otto resumed this week, making twenty-five shops now at work at this furnace. Eleven turns were made this week. At this furnace a fine line of table ware, lamps and shades are being made, and some lately been added. More flint ware is being made than formerly, and several new sets in goblets, wines, etc., are about to be brought out.

SERIOUSLY INJURED.

Man Falls Down a Stairway About midnight last night John Murphy was in a saloon on Main street, the rear door. There was a stone stair way leading into a basement, the side wall not being protected by a railing. Murphy fell over this wall, falling about Murphy fell over this wall, falling about eight feet. His groans brought a number of people to the spot, and he was found semi-conscious and suffering, apparently, great pain. He was taken up, and the police and Dr. Garrison summoned. Officers Wilkie, Daum and Cruice put him on a hand wagon and trundled him to Central Station, where Dr. Garrison examined him. There did not seem to be any bones broken, but there were signs of grave internal injuries. A man who was with Murphy said he lived in Jersey City, and was a bridge and tunnel mason. While working in a tunnel mear Cairo, Ill., he was overcome by the compressed air and has not been strong since. He had been drinking, but was not drunk. Dr. Garrison did all he could for the man.

Some time before this the same officers had to wheel Barney Brady to the lock-up from Centre Wheeling. Naturally they talked patrol wagon strongly.

George B. Hale Found Guilty on hi Bradstreet's clever representative, wa in the city yesterday on one of his peri odical visits, and as usual was warmly Statement-E. C. Ewing Acquitted in Short Order-Cunningham Awaits the Verdiet.

General Manager Frank J, Hearne, of the Riverside works, returned yester day morning over the Baltimore & Ohle from a business trip to New York and other eastern points. Three cases of alleged illegal voting were heard in the United States Court of George B. Hale, who voted on the Island. General Watts stated what the Government expected to prove, which was that Hale was not a legal resident of West Virginia and that he had actually voted in Ohio the same day he voted here. When he finished his statemen

here. When he finished his statement Hale concluded to confess. A jury having been impaneled, it was too late to enter a plea of guilty, so that the jury was directed by the Court to bring in a t verdict of guilty by agreement. This was done. The Court reserved its sentence until a future day.

The last case last evening was that of Mr. Ed C. Ewing, of this city, who is secretary of an iron works at New Brighton, Pa., but resides here and voted here in November. A jury was impaneled, General Watts stated the case, Judge Jackson asked Mr. Ewing a few questions and directed the jury to render a

and the case of the case, Judge Jackson asked Mr. Ewing a few questions and directed the jury to render a verdict of not guilty, which they did. The case occupied in all about seventeen minutes. Its quick end and flimsy character is a forcible commentary on the character of the indictments found by the Parkersburg grand jury. There never was the slightest basis for an indictment against Mr. Ewing.

The case which occupied most of the day's session was that of James Cunningham, who voted at Cameron. It was claimed that he lived in Pennsylvania, and he admitted that he had voted at primaries in Pennsylvania and received \$2 "for his day." He did not impress the bystanders as being very bright. The jury impaneled for his case is composed of Messrs. J. W. Gallaher, Georga Philips. William Chalfant, John Roemer, J. D. Maxwell, George Holliday, L. T. Gray, John C. Kirker, J. A. Farls, Thos. G. Britt, Benon Feay and Thomas O'Brien. The evidence was finished about 5:30 p. m., and General Watts made a speech of fifteen minutes or so. At its conclusion, Judge Jackson announced that he would not listen to any long speeches. This shutting off of the attorneys for the delense struck everybody as peculiar. Mr. Atkinson said he wanted some time to do his client justice. The court refused to indicate what limit he would make, and after consulting, Capt. Dovener and Mr. Atkinson declined to argue the case at all under the circumstances, and submitted it to the jury. General Watts then expressed a wish that he might

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or noses often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humora;" which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can CURED

Infantile Skin and Scalp Diseases body in a terrible condition, being cov-ered with sores. Sulphur springs fail. Cured by Cuticura Remedies.

I have used your CUTICURA HEMEDIES in two see where it proved to be successful. The first as in the case of a boy a year and a half old, is face and body were in a terrible condition, the years of age, and all right. The other case was a discusse of the scale, which was cured by washing with the Curricuta. Soar and rubbing in the Curricuta, one bottle of Curricuta Reservery belog med. They have proved successful in every case where I have advised the use of them. It is surprising how rapidly a child will improve under their treatment. I recommend them for any discuse of the sith as being the best in the world. This is am yasprisnee, and I am ready to sland by my statement. JOHN R. BERIO.
